ATTN: All Students

Influenza Vaccination

Influenza vaccination is an effective way to reduce your risk of catching influenza, and prevent severe symptoms if you do catch it. Due to the double threat posed by COVID-19 and influenza during this year's flu season, winter influenza vaccinations will begin on October 26 (Mon.). (Excludes persons age 65 or older, and some between the ages of 60 and 65.) Please consider getting vaccinated. You can find more information on influenza vaccination on the below website. Those who wish to be vaccinated should contact their local clinic by telephone. (Do NOT call the Student Health Care Center about vaccination.)
